

Sarah Chen

Email: sarah.chen@example.com | Phone: +1-555-0144 | Austin, TX

Professional Summary

Data Engineer with 3 years of experience building robust ETL pipelines, interpreting statistical data, and collaborating on machine learning model deployments. Strong background in Python, SQL, and data visualization.

Education

Bachelor of Science in Information Systems - University of Texas at Austin (2021)

Skills

Python, SQL, Apache Airflow, Spark, Scikit-learn, Statistical Data Analysis, Feature Engineering, Machine Learning Implementation, Data Visualization, PowerBI, Technical Communication.

Work Experience

Data Engineer | Apex Data Solutions (2021 - Present)

- Implemented data extraction and feature engineering pipelines in Python and Apache Spark.
- Collaborated with data scientists to evaluate algorithm performance and integrate ML models into production.
- Created executive data visualizations and PowerBI dashboards communicating key statistical metrics.

Certifications & Projects

- IBM Data Engineering Professional Certificate
- Machine Learning with Python Specialization
